

Hot galvanized ground-frame

Bestselling
in Estonia

Adjustable depth

Fast and simple
assembling

- ▶ Durable and rust-resistant ground-frame with hot galvanized treatment.
- ▶ Easy-to-install construction with pre-drilled holes
- ▶ Width and depth can be easily adjusted to fit various outdoor units (incl. larger air-to-water units)
- ▶ Fast and simple assembling (product consists of only 2 pieces)
- ▶ Easy installation of rubber vibration dampers (thanks to the washer nuts included in the set)
- ▶ Significant load capacity — **up to 250 kg**
